Thursday, October 25, 2018
Production Release Date: October 26, 2018

The following summarizes the final system changes to SEVIS Release 6.41.

F/M School Officials

Calculation for Days of Unemployment while on Post-Completion and Science, Technology, Engineering and Mathematics (STEM) Optional Practical Training (OPT)

SEVIS will modify the calculation for the total days of unemployment that a student accrued while on Active Post-Completion or STEM OPT, so that school officials will know when the student has exceeded the regulatory limits on unemployment. The ‘Unemployment’ field will change to ‘Accrued Days of Unemployment’ and will also provide the time the latest calculation was generated. When the student is not actively on Post-Completion or STEM OPT, the unemployment calculation will display ‘Not calculated’.
